

Step 1: Unzip the File

Step 2: pip install all the requirements present in the 'requirements.txt' file

Folder Contents

> New Volume (D:) > NEERAJPERSONAL > 21f1006471			
Name	Date modified	Type	Size
 __pycache__	1/7/2023 6:16 PM	File folder	
 bloglite	1/14/2023 8:17 PM	File folder	
 instance	1/15/2023 6:53 PM	File folder	
 app.py	1/14/2023 4:52 PM	Python File	1 KB
 Project-Report .pdf	1/15/2023 7:42 PM	Microsoft Edge PD...	47 KB
 requirements.txt	1/15/2023 7:46 PM	Text Document	1 KB

Step 3: After installing required packages.

Run 'app.py' file. (After navigating to the 21f1006471 folder enter '**python app.py**' in the terminal to run the file.)
